

Spray-Matic 1.25 P/N

High quality hand compression sprayer with brass nozzle for a general and industrial use

Impact resistant Polyethylene tank with 1.25 l filling capacity, transparent

- Indicates the actual filling level

Chemical resistant Viton gaskets

- Allows to spray various chemicals

Safety valve and fixable push-button

- For the safety of the user and for quick release of pressure

Ergonomic and efficient hand pump

- Makes pumping faster and more comfortable

Large filling opening

- Makes filling and cleaning of the sprayer easier

Adjustable and inclinable brass nozzle (Spray-Matic 1.25 P)

- Allows comfortable spraying with variable spray pattern

Fan jet nozzle made of brass (Spray-Matic 1.25 N)

- Allows a precise use and a regular spray pattern without large droplet formation, ideal for surface spraying

Typical Birchmeier features

- Very good stability due to 4 point supporters
- Ergonomic closed handle
- Protected safety valve (also suitable for a quick release of pressure)
- Safety lock against an unexpected spraying.

Additional longlife feature

- Valve rod made of brass for an exact spraying and extend life

Comprehensive accessory range and 10 years spare part availability

- Accessories / spare parts allow optimisation of the sprayer for different uses and extend life

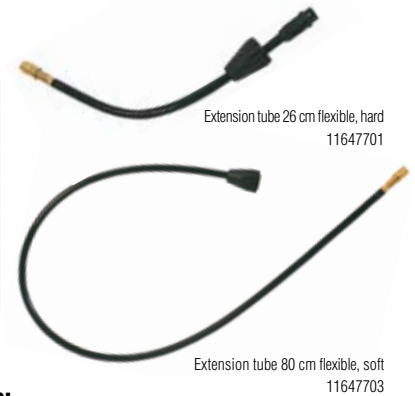

Typical applications:

Spray-Matic 1.25 P for spray cleaning and pre-treatment, floor care, carpet and upholstery cleaning, removal of stains, furniture and plant care, removal of moss-green and graffiti but also inside cleaning of vehicles etc.

Spray-Matic 1.25 N for all mineral oil based products, form oil, lubricants and degreasing agents, engine, truck and car cleaning in the automotive, construction and metal industries, public transport etc.

Product	Part No.
Spray-Matic 1.25 P white / 5 pieces per box	11613504
Spray-Matic 1.25 N white / 5 pieces per box	11815801
Accessories	
Extension tube 26 cm flexible, hard	11647701
Extension tube 40 cm flexible, soft	11647702
Extension tube 80 cm flexible, soft	11647703
