## Cladex HD

Heavy duty cladding cleaning

### Description and use

Cladex HD is a concentrated heavy duty alkaline cleaner, formulated for cleaning heavily soiled plastic type material and contemporary cladding material such as anodised aluminium and other metal surfaces. It can also be used for surface preparation prior to applying the Cladex Revive or Cladex Restore system.

### Advantages

- Removes chalking from painted surfaces
- Economical
- Removes heavy soiling

### Application Conditions

Minimum air temperature 5°C  
Maximum relative humidity 100%  
Minimum surface temperature 5°C  
Maximum surface temperature 30°C

### Coverage Rates

Approximately 20m<sup>2</sup> per litre, depending upon the level of soiling.

### Safety Information

Wear suitable PPE – goggles and gloves to avoid splash to bare skin or eyes. Always refer to material safety data sheet before use.

### Pretesting

Always test each type of surface to ensure suitability and desired results. Apply test area according to the following application procedures

### TECHNICAL DATA

**Appearance:** Red transparent liquid

**pH Value:** 13

**Boiling Point:** N/A

### Application Instructions

**Initial cleaning:** Depending upon level of soiling, maximum dilution 1:5

**Maintenance cleaning:** Maximum dilution 1:20

1. Apply the solution with a sponge or low pressure sprayer, leave for a few minutes, some agitation might be required.
2. Do not allow the product to dry on the surface.
3. Rinse thoroughly with clean water

N.B. For periodical maintenance cleaning and lighter soiled surfaces use Cladex LD.

### Packing

1 x 10 litre plastic container

### Shelf Life

Cladex HD may be stored for a minimum of 12 months in a tightly sealed, unopened container. Store in an ambient temperature not below 0°C or above 30°C. Protect from frost.
